

**STILLHOUSE HOLLOW FALLS**  
**CLASS I SCENIC - RECREATIONAL STATE NATURAL AREA**

**COUNTY:** Maury

**ACREAGE:** 90

**7.5' QUADRANGLE:** Summertown

**OWNERSHIP:** State of Tennessee

**PHYSIOGRAPHIC PROVINCE:** Western Highland Rim

**YEAR DESIGNATED:** 2006

**DESCRIPTION:** Stillhouse Hollow Falls is a 90-acre state natural area located approximately 21 miles southwest of Columbia and three miles northeast of Summertown off Hwy US 43. The natural area is on the Western Highland Rim in the Duck River watershed. The geology of this region creates scenic natural features such as seeps, flat shale-bottom streams, and waterfalls, both small and large, which help shape the region's dissected topography.

The natural area is named for its most significant feature, Stillhouse Hollow Falls, which can be seen by walking approximately 2/3 of a mile along the Stillhouse Hollow Falls trail. The trail crosses an unnamed tributary that forms small scenic cascades before plunging approximately 75 feet over the falls. A deep hollow is formed below the falls that is surrounded by steep slopes where wet-weather springs emerge contributing to a rich habitat supporting a colorful spring wildflower display of trillium, spiderwort, wild geranium, phlox and many other species.

The beginning of the trail to the falls passes by a showy shrub layer of oak-leaf hydrangea (*Hydrangea quercifolia*), Alabama azalea (*Rhododendron alabamense*), deerberry and downy mock-orange (*Philadelphus pubescens*). The forest on the lower slopes and along the stream is comprised of a canopy of large sugar maples, sycamores, white oaks, beeches, and tulip poplars beneath which grow many species of shrubs such as spicebush, pawpaw, and alder. On the steeper slopes below the waterfall, bladdernut (*Staphylea trifolia*) and pagoda dogwood (*Cornus alternifolia*) are plentiful. The surrounding upper slopes and the steeper dry ridges are where large oaks and hickories dominate the forest canopy.

Stillhouse Hollow Falls was designated a state natural area in 2006 and is protect in perpetuity under the Natural Areas Preservation Act of 1971. It was acquired by the Tennessee Parks and Greenways Foundation (TPGF) and then sold to the State at a reduced cost. The TPGF provided a trail development grant to the Friends of Maury County Parks and the Tennessee Trails Association that facilitated opening the natural area to the public on June 3, 2006. The grant money was used to develop the small parking area, provide signage, build the kiosk, and develop the trails.

**SITE MANAGEMENT:** Division of Natural Areas – West TN office, 1625 Hollywood Drive, Jackson TN 38305, phone (731) 512-1369; Division of Natural Areas, 7<sup>th</sup> Floor, L&C Annex, 401 Church Street, Nashville, TN 37243, phone (615) 532-0431; Maury County Parks and Recreation Department, 1018 Maury County Park Drive, Columbia, TN 38401 phone (931) 375-6101.

**PUBLIC ACCESS:** Public access allowed; parking and hiking trails are provided.

**DIRECTIONS:** From Nashville, take I-65 south and take the Saturn Parkway toward Columbia. Turn right on Hwy 43 and proceed about 21 miles. The natural area parking area is on the right once you have passed over the Judge Workman Bridge. It is about three miles northeast of Summertown on Hwy 43 on the left just before the bridge.
